Project Management of House Build in Thailand: May 2014 through to September 2014. Project managed 150 sq meter one storey house. The house is for my own private use, which was built well within budget and on time.

Springtide Procurement Solutions – Bristol: 18 Nov 2013 to 30 April 2014 – Contract Role
Senior Procurement and Supply Chain Analyst. Responsible for the Transport Data Analysis from UK and EU Logistics Companies with a view to recommending Change Management and Company Cost Savings.

DHL Gloucester: Operations Shift Manager since October 2011 to August 2013.

Joined DHLTrade team in Gloucester at a very interesting & challenging phase within the business. With responsibilities including **change management**, Health & Safety investigations, MHE Maintenance & Servicing, Employee Engagement. In addition, responsible for Staff Development & Training, Managing the Warehouse Operations since increasing volumes by over 60% as a result of the Gloucester Site becoming a Main Distribution Centre with the transfer of business from our Hams Hall Site near Birmingham. This has involved an increase in MHE, Staff and a change in shift patterns from 2 shifts to 3. Additionally, responsible for revising Warehouse Mapping, Pick-faces, Goods Out Bays and dispatch.

During this employment was seconded to Project Work on behalf of the Area General Manager which involved planning for the increase in business volume, Staff Recruitment, MHE uplift and parallel recruitment during the consultation process, and ensuring company policy, aims and strategies are cascaded to all personnel effectively. Primarily preparation of the increase in output volume from 320 tons per day to 500 plus tons per day. Key skills utilized during this period included:

- Significant Management of Personnel, dealing with workplace conflict
- Ability to Challenge Senior Management from a position of excellent core competencies and experience.
- Introduction of Change processes and handling the challenge in a competent but caring manner.
- Motivation all shifts including Night Shift through increased engagement and effective communication.
- Management of Warehouse Management IT System and monitoring of KPIs including Pick rates, and periods of non-gun activity of more than 10 minutes during each shift.
- Providing Senior Management team with clear and concise KPI data to enable key changes to be made in the right areas.
- Compliance ensuring all task procedures and SOPs were followed thereby enabling the Depot to improve its status within the Group.
- Reduction of Costs through effective monitoring of MHE check sheets and ensuring maintenance schedules kept up to date.
- Training – Keen maintenance of the Company Training Matrix ensuring all staff remained in date with all training. This was echoed during recent audits where no non-compliances were observed, this being a significant improvement for the Depot.
